- Apply IP3
- Lead your Green Team/ASB/School Community Group
- Lead an SA Team
- Participate in a Summer Internship
- Participate in a Paid Internship
- Employment with SA
- Employment Beyond with Green Jobs

Aarya
Solar Neighborhood Project Manager
"My professional skills have developed phenomenally due to Sustainability Ambassadors. I know that the leadership and collaboration skills that I have gained will help me succeed in a wide range of careers and college majors."

Nilesh
Sammamish Team Co-Leader
"Sustainability Ambassadors has allowed me to advance a sustainable future while strengthening my leadership qualities. It has given me a comprehensive view of global issues, prompting me to be a leader for the youth and make a tangible impact on my community."

Iris
International Team Leader
"Until I joined Sustainability Ambassadors, group projects were dull for me. However, SA teaches its members the art of facilitation – of getting groups to work together smoothly. I am now prepared to lead and be a member of a team."

Sofia
Sustainability Leadership Coordinator
"Sustainability Ambassadors has prepared me for a Green Job by leading me towards a variety of real-world, sustainability internships. I've developed into a resilient college intern who implements and manages high-impact community projects."

Simran
Green-Duwamish Watershed Intern
"I have taken part in curriculum design and curating creative that not only cater to the creative and ambitious minds of students, but practice project-based learning. I have found more of myself through Sustainability Ambassadors and feel confident to pursue what else lies ahead of me."

Lillian
Project Manager Intern
"Sustainability Ambassadors has improved my public speaking abilities and facilitation and problem-solving skills. I feel more confident mentoring students now compared to when I joined. The information and experience I take away actively prepares me for the workforce."
